

Season 3, Episode 2: Unicorn Day

Make unicorn slime, do a narwhal dance. Welcome to CAMP TV—a half-hour day camp experience in your living room! Head counselor Zachary Noah Piser and his new co-counselor, Mia Weinberger, guide “campers” as they learn through play. Content partners include Blackspace, Cooking with Courtney, National Dance Institute, Nature, New Victory Theater, Story Pirates, They Might Be Giants, WFSU.

Activity Guide

Unicorn Slime	1-2
Smoothie Popsicles	3-5
Candy Diffusion	6
Air Art	7-8

Camp TV is a production of The WNET Group.

Major funding for **Camp TV** is provided by the Corporation for Public Broadcasting. Additional funding was provided by The Charles and Lucille King Foundation, the New York City Council, the Alice Lawrence Foundation, Pine Tree Foundation of New York, and The Peter G. Peterson and Joan Ganz Cooney Fund.

Unicorn Slime

Materials List:

- ½ cup thick shampoo
- ¼ cup cornstarch
- food coloring
- water
- dash of glitter (optional)

Instructions:

1. Pour ½ cup of shampoo and ¼ cup of cornstarch into a bowl and mix.

2. Add a couple of drops of food coloring and mix it in. Add a dash of glitter (optional).

3. Start by adding 1 tablespoon of water and mix well. Continue adding water one tablespoon at a time until it reaches the right consistency. If your slime feels too sticky, add some more cornstarch.

4. Repeat this recipe a few times to make a variety of colors. Or, split one batch up before mixing in the food coloring.

5. Now layer the different color slimes together, smush them up, and there you have it! Unicorn slime! Remember, slime making is not an “exact science,” so try experimenting with different amounts of the ingredients until you find the perfect unicorn slime texture for you!

Smoothie Popsicles

Materials List:

- 1 cup yogurt
- 12 small strawberries (or 6 large strawberries)
- half a banana
- popsicle molds (or food safe plastic containers, paper cups, or recycled applesauce containers)
- popsicle sticks
- plastic wrap
- kitchen shears

This activity should be done with the help of a trusted adult

Instructions:

1. Be sure to wash your hands for at least 20 seconds before and after handling food.

2. Add 1 cup of yogurt, 12 small strawberries, and half a banana into a blender.

3. With the help of an adult, mix the smoothie using the blender. Make sure the lid is secured tightly. Start with the blender on the lowest setting, then slowly turn it up to the highest.

4. Fill popsicle molds to the top with your smoothie.

5. Cover the top of the filled popsicle molds with a small piece of plastic wrap. Grab the ends of the plastic wrap and twist them together to create a seal.

6. Ask an adult to use kitchen shears to poke small holes in the center of the plastic wrap.

7. Insert one popsicle stick into the holes in the plastic wrap.

8. Freeze for 6+ hours until solid, then remove the popsicles from the molds. You may need to run them under warm water for a few seconds to loosen the molds. Remove the popsicle and enjoy!

Candy Diffusion

Materials List:

- hard-shell candies in different colors
- shallow plates
- cup of warm water

Instructions:

1. Take a shallow plate and organize your candy in a circle around the edge of the plate.

2. Pour some warm water into the center of the plate until the candy is completely covered.

3. Observe as the colors move toward the center of the plate! Experiment with different patterns or types of candy to see how they react with the warm water!

Air Art

Materials List:

- sheet of paper
- watercolor paint
- cup of water
- paintbrush
- straw
- black marker

Instructions:

1. Place paper on a flat surface. Dip the paintbrush into the water, making sure to get a lot of water onto the paintbrush. Choose your first color and dip the wet paintbrush into the paint. Plop the watercolor onto the paper. Work fast and do not rub it in, the paint should stay shiny and wet.

2. Take a deep breath and use your straw to blow on the portion of the paper where you dropped your color.

3. Repeat with different colors. Play around with space, shape, or the direction you blow the colors.

4. Let it dry and observe the shapes you made with your paint. Do you see anything within those shapes? People? Animals? Food? Use your imagination! Then, use your marker to draw the objects that you see.
